

Scorpion Robot Inspection Starter Kit

The perfect introduction for making your own Robot Inspection System, includes Scorpion Vision Software®, a Sony XCD-SX910(CR) firewire camera, a Sony Desktop Robot and two days training.

The Sony approved Scorpion Robot Inspection Starter Kit contains everything you need for bringing your Scorpion Robot Inspection project to life. The kit includes a Scorpion Standard software license combined with the new high quality Sony XCD-SX910 (CR) camera, a Sony Desktop Robot and a 2 days training course where you learn how to use Scorpion Vision Software® in combination with the Sony Desktop Robot.

A standard and configurable user interface paired with innovative, easy-to-use and robust imaging tools quickly enable you to plan, implement and test a complete robot vision system. Optional data measuring and image logging provide unique traceability.

The Sony approved Scorpion Robot Inspection Starter Kit consists of the following items:
